**BQE Software Launches BillQuick Agent Pro**  
*Powerful Reporting Tool Makes Billing/Payroll Processing Easier*

LOMITA, CALIFORNIA – May 3, 2002 – BQE Software, Inc., a leading developer of time billing and project management software, announces the launch of BillQuick Agent Pro, a powerful reporting tool for project managers that allows users to track company billing/payroll. With Agent Pro, project managers can set up delivery and reporting filters for employee time cards, client statements, invoices and other reports. These filters then allow for automated reports to be delivered to computer screens, printers or through email as an attachment.

“Although Agent Pro mainly serves company administrators, it is also geared towards the principals or project managers of a firm,” said Shafat Qazi, President of BQE.

“Whether the firm manager needs budget comparison reports to monitor a specific project or the principal needs cash receipt reports on a scheduled basis – Agent Pro delivers them automatically. This product is a huge step towards our goal of promoting efficiency, improving productivity and streamlining management tasks – in other words, letting the computer become your reliable assistant.”

Agent Pro has a small memory footprint (the amount of memory the product needs to run), requiring approximately 700 Kb of memory for performance. In addition, Agent Pro uses standard Microsoft Windows components: “We’ve tried not to re-invent the wheel by creating BQE components for Agent Pro,” added Qazi. “We use everything that is in our client’s operating system already, loaded in their memory, so we can help our customers cut back on overhead.”

In addition to report automation, Agent Pro monitors employee time cards based on a set of rules. With these rules, administrators and billing staff can ensure that all time cards are recorded and submitted in time.

BQE Software has designed a series of products for professional service industries that completely automate the time keeping and billing process. This includes software for off-site consultants and satellite offices, time keeping, expense recording, report generation, invoicing, client setup/review and project setup/review via the Web, email and PDAs.

BQE Software also offers a free 60-day evaluation copy of BillQuick and all of its add-on products that can be downloaded from their Web site. For more information on BQE Software or BillQuick products, call (888) 245-5669 or visit [www.BillQuick.com](http://www.BillQuick.com).

**About BQE Software, Inc.**

BQE Software, Inc., founded in 1995, is a leading developer of time billing and project management software. Its flagship product, BillQuick, offers tools to maintain time records, client information and project development. BillQuick meets the needs of users who require billing based upon criteria such as time and expense, fixed fee, hourly billing, hourly billing with a “not to exceed” amount and contractual billing. All invoices, statements and reports are completely customizable with Seagate’s Crystal Reports 7.0. BillQuick is network compatible with multiple users, and allows for off-site time entry and data merging. It features Microsoft Access compatible data files as well as SQL server data files. In addition, billings and reports can be exported to any software package, including *QuickBooks* and *Peachtree Accounting*. Architects, engineers, accountants, attorneys, consultants and programmers have all discovered the unequalled features and flexibility of BillQuick products. For more information on BQE Software or BillQuick products, call (888) 245-5669 or visit [www.BillQuick.com](http://www.BillQuick.com).
