### BQE Software Launches BillQuick 2004 Time Tracking and Billing Software

*Designed to simplify the data entry process, latest release incorporates new features including unique real-time synchronization with Intuit QuickBooks*

LOMITA, CA – May 5, 2004 – BQE Software Inc. today introduced BillQuick® 2004, the most flexible, intuitive and scalable time billing software solution on the market. Based on feedback from BQE Software's users and consultants, BillQuick 2004 delivers more than 100 new features and enhancements, allowing industry professionals including accountants, architects, attorneys, business and computer consultants, contractors, and engineers to maximize billable hours and cash flow.

BillQuick 2004 contains smart functionalities to ensure effortless data entry, including: real-time, scheduled and on-demand synchronization with Intuit QuickBooks®; Resource Allocator staff scheduling add-on with full-feature project management, conflict examination and resolution capabilities; event scheduling integration with Microsoft® Outlook; BillQuick Mobile add-on linking employees to data files from any web-enabled cell phone or PDA; and employee functionalities specifically designed for off-site vendors and contractors. Additionally, BillQuick 2004 accommodates for billing based upon criteria such as time and materials, percent complete, fixed fee, project phasing, recurring and billing against retainers. Work flow, in general, and turn-around time for approvals are significantly improved as users can enter and submit time and expenses in just a few keystrokes; BillQuick 2004 reviews the data automatically, bills intelligently at the appropriate time and automatically notifies the appropriate project manager when the process has been completed.

“BillQuick 2004 was designed to make the time tracking and billing process more intuitive for our customers,” said Will Breiholz, General Manager of BQE Software. “With simpler data entry, users are able to manage their projects and budgets more efficiently, thereby reducing operating costs, meeting and exceeding the requirements of their clients and increasing revenues.”

The 2004 line-up of BillQuick includes targeted solutions to minimize time spent on daily administrative tasks, tailored to all business needs and sizes:

- BillQuick Lite – Single user version for Small Office/Home Office
- BillQuick Basic – For small-sized offices
- BillQuick Pro – For small- to medium-sized offices
- BillQuick Enterprise – For medium- to large-sized offices using SQL Server database
- BillQuick Web interface – Time Cards, Expense Log, and Client and Project Management via the Internet
- BillQuick PDA – Remote and wireless entry of employee time cards and expenses on Palm, Windows CE, Pocket PC OS

BillQuick 2004 is built on an open architecture and is adaptable to serve the specific needs of dedicated professions and organizations. BillQuick is flexible and able to exchange data with many other software programs, including Microsoft® Access databases, Excel spreadsheets and financial management solutions including QuickBooks. BillQuick 2004 runs on Windows® 98, ME, NT, 2000 & XP.

BillQuick 2004 is priced at \$395 for a 2-user license and \$695 for a 5-user license. For more details, or to obtain a 30-day trial version, visit [www.BillQuick.com](http://www.BillQuick.com) or send an email message to [sales@bqe.com](mailto:sales@bqe.com).
