The Sleeter Group Chooses BQE Software Products As Top Solutions For Accountants And QuickBooks Users

***BillQuick Selected by Recognized QuickBooks Experts As Top Time & Billing Solution
Sleeter Also Names BQE's AutoReporter To Ten Awesome QuickBooks Add-ons List***

Torrance, California, October 27, 2004 – BQE Software, Inc. today announced selection of two major BQE Software products by The Sleeter Group, Inc., a nationally recognized leader in software training for accountants, bookkeepers and small business owners, specializing in onsite and courseware materials for QuickBooks® and online accounting software.

BillQuick, BQE Software's flagship product, will be presented by Sleeter Group staff at the upcoming Sleeter Group QuickBooks Consultants Conference in Boca Raton, FL, November 3-5, 2004. BillQuick was chosen as a top product in the accountant and legal time and billing market space, both for professionals to use and to sell to QuickBooks users in the professional services industry.

"We looked at a number of time and billing solutions," says Douglas Sleeter, Founder and President of The Sleeter Group. "There are a few good ones out there, but a good time and billing system MUST tightly integrate with the QuickBooks accounting data. Our staff was impressed by BillQuick's value for accounting firms as well as its ability to adapt to law, engineering, architectural and other professional firms. BQE's track record also impressed our evaluators. And no package is more seamless with QuickBooks than BillQuick."

The Sleeter Group also chose AutoReporter for QuickBooks, a report workflow automation add-on for QuickBooks Pro, Premier and Enterprise, as one of the *Ten Awesome Add-ons* to be presented and promoted at the Boca Raton conference and through Sleeter Group communications channels to accountants, QuickBooks consultants, QuickBooks developers, and others.

"AutoReporter is amazing," Mr. Sleeter says. "This is the kind of technology that should be built into every QuickBooks client system. A professional or a small business owner using QuickBooks can save an hour, two hours, perhaps more, every month by having AutoReporter automatically produce and deliver via email any QuickBooks report. Many QuickBooks users don't realize this kind of technology is available. When they do, a whole new set of expectations will rise up."

BQE Software offers a fully-functional, [trial versions](#) of BillQuick, AutoReporter and the entire BillQuick family of modules. Also, BQE offers weekly [BillQuick Walk-Thrus](#) for professionals

and [BillQuick flash demos](#) are available. A [Timeslips-to-BillQuick Conversion Utility](#) is available.

About BQE Software Inc.

Founded in 1995, BQE Software, Inc. released the first version of its flagship product, BillQuick®, in 1996, growing it into a leading time billing and project management solution. BQE develops products for the professional services industry that completely automate timekeeping, project management and billing processes, including solutions. This includes time and expense recording, report generation and invoicing via the Web, cell phones, email and PDAs for off-site consultants and satellite offices. The BillQuick Family also employs advanced technology, including workflow automation and fuzzy logic self-learning algorithms. BillQuick adapts to accounting, architect, engineer, law and other professional firms of any size with unequaled features and flexibility. BillQuick supports the Microsoft Access or SQL databases. BillQuick integrates with QuickBooks, QuickBooks Online and Microsoft Outlook.

BQE Software can be reached at (888) 245-5669 or Sales@bqe.com. For more information, visit www.BillQuick.com.
