

BQE Software Unveils ArchiOffice 2013

Latest Release Brings Substantial Speed and Productivity Boost.

LOS ANGELES, CA — May 1, 2013 — BQE Software Inc., a world leader in project management, time tracking, billing software, announced today the immediate availability of BQE ArchiOffice® 2013. This latest release gives customers improved speed, efficiency and ease-of-use while significantly simplifying navigation.

“BQE Software is all about constant innovation,” explains Shafat Qazi, CEO and Founder of BQE. “We are driven to create friction-free software that eliminates the obstacles that can sometimes stand between powerful technology and ease-of-use. ArchiOffice 2013 brings us even closer to achieving that goal. We took great pains to provide an easy, enjoyable user experience for customers and it shows. I couldn’t be more proud of our team for doing such a wonderful job.”

Users can take ArchiOffice 2013 with them anywhere since it works on iOS, Windows and Android devices, and can get things done fast, thanks to the improved navigation and enhanced performance. “Based on the comments we’ve received from customers testing ArchiOffice 2013, we know people are going to be very impressed with the intelligent technologies that are making what was already the easiest and most beautiful business management software for architects more agile and fast,” said Steven Burns FAIA, Director of Product Strategies at BQE.

The development team at BQE Software, fine-tuned the code to make using ArchiOffice 2013 not only blazingly fast, but fun. Users can now find anything quickly with the intuitive search bar; complete timecards rapidly using pre-filled fields, and create clear color-coded reports for Work-in-Hand, WIP with A/R Aging, Submittals and many more.

ArchiOffice 2013’s portability and speed means firms can now swiftly finish the tasks that take precious time away from design, and access their information absolutely anywhere, anytime.
