

# BQE Software Releases ArchiOffice Online

---

## New Cloud-based Version of ArchiOffice Offers Anytime, Anywhere, Any Device Accessibility

Torrance, CA – September 10th, 2014 – BQE Software Inc., a world leader in time tracking, billing, and project management software with more than 300,000 users worldwide, announced today the immediate availability of [ArchiOffice Online](#). For the first time, users can utilize the power of the award-winning solution for architects without having to invest in a server or worry about backups.

“BQE Software is constantly evolving its products to stay current with technology”, says Steven Burns FAIA, Chief Creative Officer at BQE. “Recently, we recognized that our customers are seeking the freedom provided by cloud-based services. ArchiOffice Online breaks the link between office management software and hardware, delivering robust management tools in the cloud.”

“Besides the obvious advantages SaaS solutions provide”, Burns continues. “BQE also recognized that many architectural firms seeking our software were exclusively using the Mac operating system and reluctant to install a Windows server. ArchiOffice Online removes this friction point by eliminating the need for a server at all. Whether a firm is Mac or PC-based, ArchiOffice Online is not only a secure, flexible, and accessible solution, but an affordable and convenient option for any sized architecture firm.”

Starting at \$19.95 per month, ArchiOffice Online provides many benefits including a hassle-free setup with regular updates and full backups. Users can also enjoy:

- No additional hardware installation required
- Native iOS and Android apps
- Fully secure and automatic data backups
- Access anywhere, anytime, and on any device

### Availability

BQE ArchiOffice Online® is now available for worldwide purchase through ArchiOffice Online website, BQE Direct Sales and BQE Authorized Resellers.
