INTRODUCTION

Welcome to BillQuick Online from BQE Software!

BillQuick Online is a subscription-based, Software-as-a-Service (SaaS) model offered by BQE Software. It is a browser-based version of BillQuick® desktop that is hosted by us, providing you with a secure, hassle-free, investment-free time tracking, billing and project management software solution.

Many professionals and consultants spend most of their time out of office—at a client's site, satellite office or at home. Usually, employees or consultants on the move submit their time and expenses by mail, fax or email. At the receiving end, the records must be imported or manually entered into the time billing software. To make this process quick and easy, BillQuick Online provides a fantastic solution by extending the reach of BillQuick to remote users via the Internet.

Being a hybrid SaaS model, BillQuick Online does not store data solely at the hosted site (called 'cloud') but also at the local site. If you are using BillQuick desktop on a computer or laptop, whenever Internet connection is available, you can sync that data with the BillQuick Online database using the synchronization tool. You can always have a copy of your company data in case you cannot access BillQuick Online. This is in addition to the data backups automatically taken by us. The data synchronization brings the databases of the two programs to the same level.

The goal of this **BillQuick Online Getting Started Guide** is to help you get started and become comfortable interacting with the program. It explains the concepts and procedures involved in setting up a BillQuick Online account, focusing on its subscription, and basic and main functionalities. Thus, this Guide enables you to quickly learn how to run and use BillQuick Online effectively and efficiently.

 The BillQuick Online Getting Started Guide is not a complete training solution. It is a guided tour designed to set up and familiarize you with BillQuick Online. After completing the guide, we recommend that you explore the [BillQuick Online Help](#). In particular, check out the *How Do I* help items. Based on your preferred learning style and available time, you can choose self-learning or guided learning. Guided learning uses role-based and custom training courses. *Check out www.bqe.com/Services for more.*

SYSTEM REQUIREMENTS

To be able to use BillQuick Online, you need an Internet connection and a web-browser. Your computer should meet these basic requirements:

Hardware Requirements

- 2 GHz Intel Pentium processor or faster
- 1 GB RAM or more (2 GB recommended)

Software Requirements

- Windows 10/8/7/Vista/XP
- Microsoft Internet Explorer 10.0 or later, Chrome 30.0 or later, Firefox 30.0 or later, Opera 20.0 or Safari 6.0 or later

Windows PCs:

- Windows 10/8/7/Vista/XP
- Microsoft Internet Explorer 10.0 or later, Chrome 30.0 or later, Firefox 30.0 or later, Opera 20.0 or Safari 6.0 or later

Apple Mac:

- Mac OS 10.0 or later
- Safari 6.1 or later

Be sure to install the latest Windows service packs and critical updates. Some versions of Windows include an Automatic Update option.

All BillQuick 2015 desktop editions – Basic (Microsoft Access), Pro (Microsoft Access and SQL Express) and Enterprise (Microsoft Access, SQL Express and Microsoft SQL Server) – integrate with BillQuick Online 2015.

BillQuick Online syncs with its corresponding version of BillQuick. *It will not sync with an older or a newer version of BillQuick.*

START-UP

BillQuick Online is hosted by us and, hence, you do not have to worry about its installation or backup.

Basic start-up procedures for BillQuick Online involve these key steps (*see below for details*):

1. Sign up for a BillQuick Online account.
2. Create a company file.
3. Log into BillQuick Online.
4. Navigate BillQuick Online.

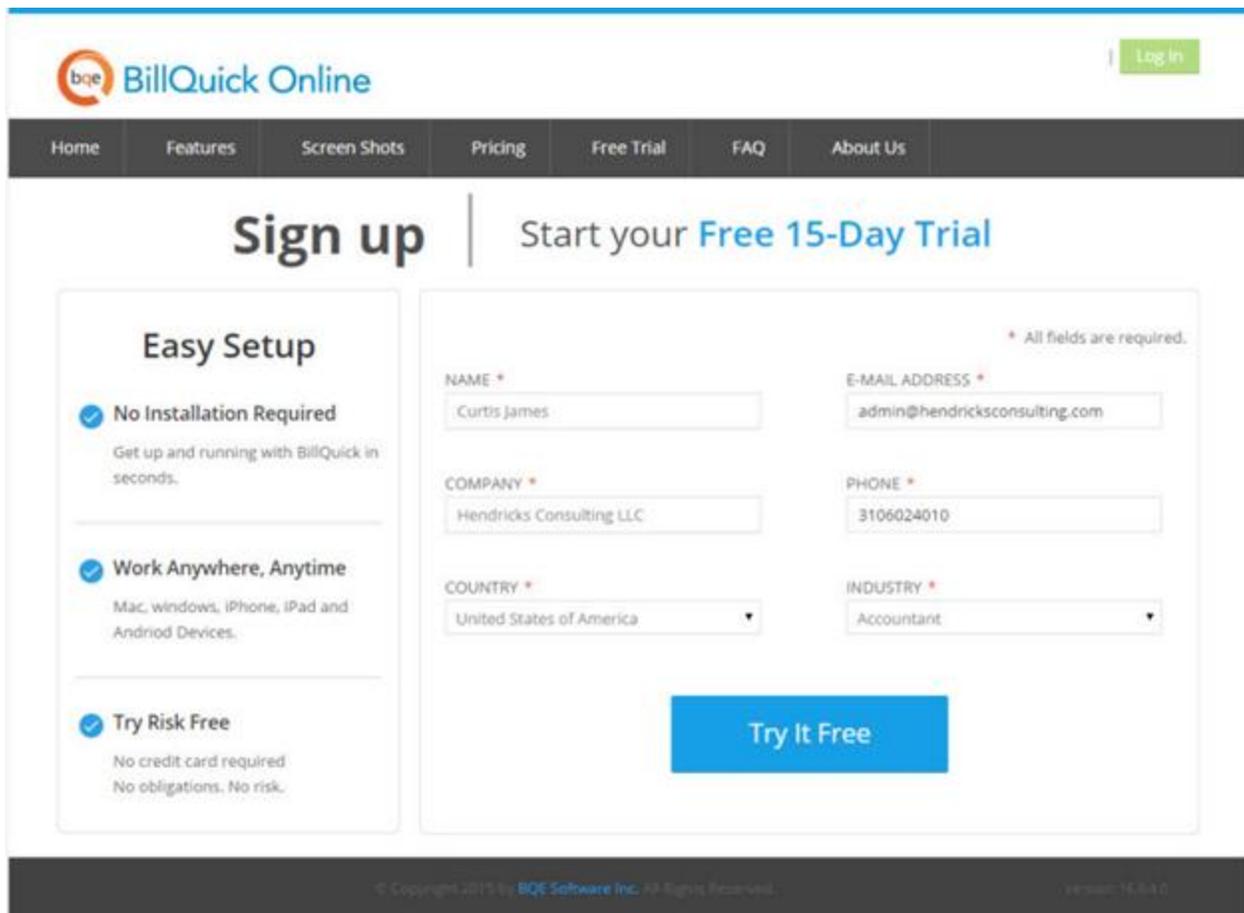

Before subscribing to the software, please read the [End User License Agreement](#) (EULA).

BillQuick Online Account

To use BillQuick Online, you need to subscribe to it or evaluate it via the website www.BillQuickOnline.com. You are provided with the option to test drive it for 15-days before buying it. If you are a new user directly accessing the BillQuick Online Login, click the option to sign up for a 15-day free trial. During these 15 days, you can try out the full functionality of BillQuick Online including the ability to sync with BillQuick desktop software.

To get started, you have to sign up for an account on the New Account page by clicking on [Free Trial](#). Creating a new account involves creating a new company file. You have to provide the required information, including a unique email address. *Subscription is based on this unique email ID.* After this, you will receive an email confirming your free trial along with a login ID and temporary password. You have to use these credentials to validate your account and log into the program. Your email address is marked as the Owner of the company file.

BillQuick Online Company

When you create an account with BillQuick Online, a company file is created using the company name provided by you. You also provide the industry type in the signup process which sets the BillQuick Online company file for that industry. However, when you want to add another company to your BillQuick Online account, you can do so from the Add Company tab of the program. You have to purchase separate licenses for users in each company.

If you have created multiple databases, you will be prompted to choose the database you want to access before viewing the account details on the My Account tab.

BillQuick Online will display the Startup Wizard as soon as you validate your account. It prompts you to change the password and add users, if desired. After you [log into](#) your BillQuick Online account, you have the option to buy the service. You can create up to 100 named users for your company file during your evaluation period. After you purchase the subscription, you can purchase more than 100 named users.

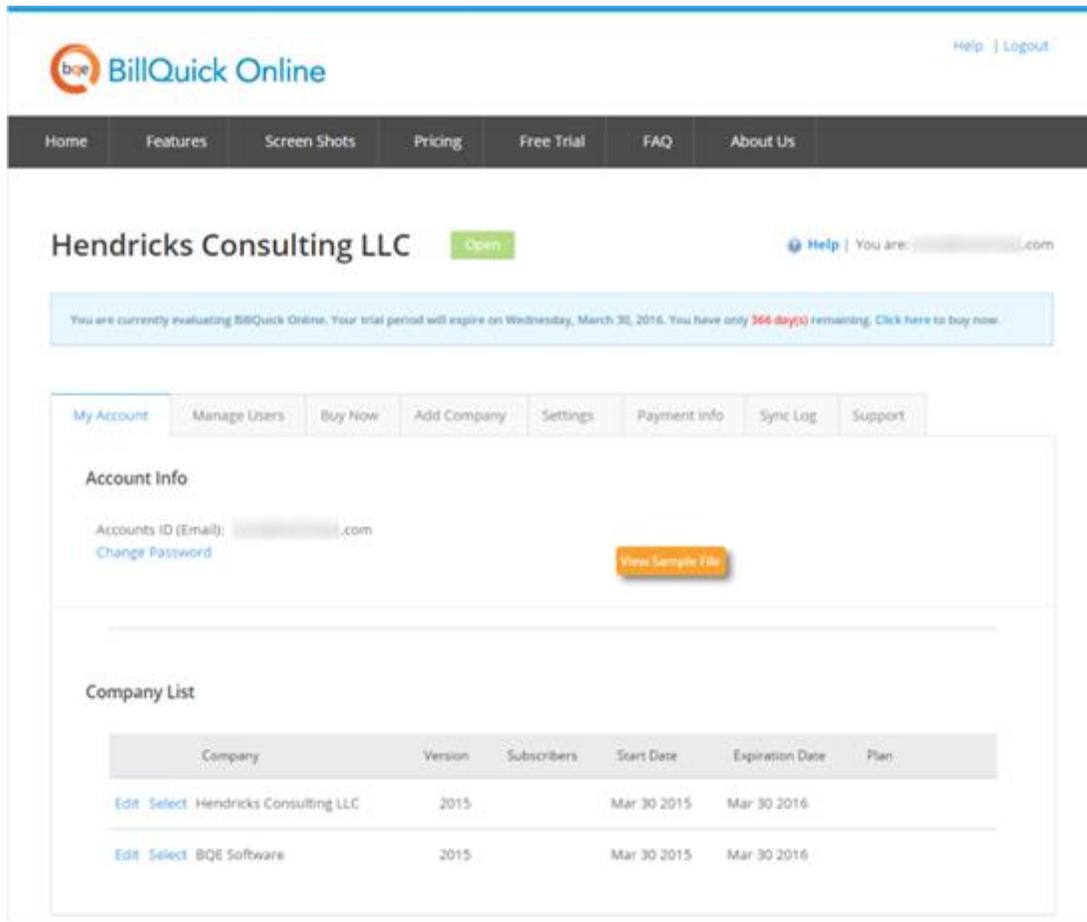

Your email address is marked as the Owner of the company file. When you add new users, you can

designate them as Administrators or Standard Users. By default, the Administrator account has full access to the BillQuick Online program. However, you can change the permissions using the Security screen within the program. Designating someone as an Administrator does not affect the subscription price.

As an Owner, you will be responsible for the company file, especially adding other users and entering company data. You can enter or add your company data into the BillQuick Online database in one of the ways:

- Manual data entry into a fresh BillQuick Online company file or database
- Move data from your existing accounting programs like QuickBooks, Sage 50, etc. This involves data integration between your existing program and BillQuick desktop, and then syncing that data into the BillQuick Online database using the Sync Tool.
- Importing your existing data into BillQuick desktop using the Import/Export utility and then syncing that data into the BillQuick Online database using the Sync Tool.
- Have BQE migrate your existing data into the BillQuick Online database and upload it for you. *Call your Account Rep for the details.*

The Owner has the privilege to create multiple databases, view account details and manage the overall account. The various options available to the Owner are:

- My Account Tab: manage BillQuick Online account
- Manage Users Tab: add BillQuick Online users
- Buy Now Tab: purchase licenses
- Add Company Tab: add multiple company databases
- Settings Tab: specify settings for the Online company
- Payment Info Tab: view payment history of your Online account
- Sync Log Tab: view information about data synchronization between BillQuick Online and BillQuick desktop
- Support Tab: email Technical Support if there is any problem with your Online account

The options available to a user differ based on the user type set by the Owner. A Standard User is only able to view his or her account information (that too limited) while the Administrator is able to manage the

account and view all information with some exceptions.

Upgrade

If you are an existing user of BillQuick Online (Owner or Administrator), you will receive an automatic notification and be prompted to upgrade your online company file. You can choose to continue using the older version or upgrade to the newer version for free. Please follow the on-screen instructions.

We recommend scheduling your upgrade at a time when no activity is taking place in your local BillQuick and BillQuick Online data files.

The upgrade process is automatic but prior to upgrading BillQuick Online, you need to follow these steps:

1. Download and install the latest BillQuick setup on your system (say [BillQuick 2015](#)).
2. When you start BillQuick 2015 for the first time, you will be asked, "*Would you like to upgrade your database?*" Click Yes to convert your BillQuick 2014 company database to the new 2015 version.
3. After conversion is complete, please verify your data in BillQuick 2015. You can open master information screens and view data, view latest time and expense entries, view invoices and payments. You can run *Aging* report or *Unbilled Time and Expense* report to confirm that all data is converted successfully.
4. If you have BillQuick 2014 desktop on additional computers, please install BillQuick 2015 on them too. When you start BillQuick 2015 for the first time, just choose the option to 'Open an Existing Company File' and point it to the 2015 data file.
5. License and register your BillQuick 2015. The license and registration keys are emailed to you or you can contact us at sales@bqe.com.
6. Log in to your existing [BillQuick Online](#) account. If you are the Owner or Administrator, you are prompted to upgrade.

Based on your data file size, it can take from a few minutes up to an hour for the online conversion to finish. You must keep your browser window open until the conversion process is complete.

7. After the process is completed successfully, you (Owner) should log out. Upon login, when you click Open, you will be accessing your company data in the new BillQuick Online 2015 program. All the user accounts that were associated with the old company file will be upgraded automatically.
8. Verify your data in the new BillQuick Online data file. You can open screens and view data, say latest time and expense entries. You can also run the *Aging* report or *Unbilled Time and Expense* report to confirm that your data was converted successfully.

 To sync your data between the BillQuick 2015 desktop and Online company file, please [install the latest Sync Tool](#).

Login

You must be a BillQuick Online User to log in and use the program. You will be prompted for a unique **Email ID** and **Password** when opening the web interface.

After creating a BillQuick Online account and registering for trial use, BOE Software emails you a link to activate your account along with a temporary password to log into the program. The Email ID used for login during the trial period remains the same when you subscribe and buy BillQuick Online.

When you log in for the first time as an Owner, you are prompted to change the password. After changing it, you should use the new password to access BillQuick Online in future. This password can be changed any time from the My Account tab.

The screenshot shows a login form with the following elements:

- Email ID:** A text input field containing "cj@hendricks.com".
- Password:** A text input field containing six dots (password masked).
- Login:** A prominent blue button.
- Forgot your password?:** A blue text link below the password field.
- Sign in with Intuit:** A button with the Intuit logo at the bottom.

To start working within BillQuick Online, you must click Open to open your company data file. After doing so, the BillQuick Online Home page displays.

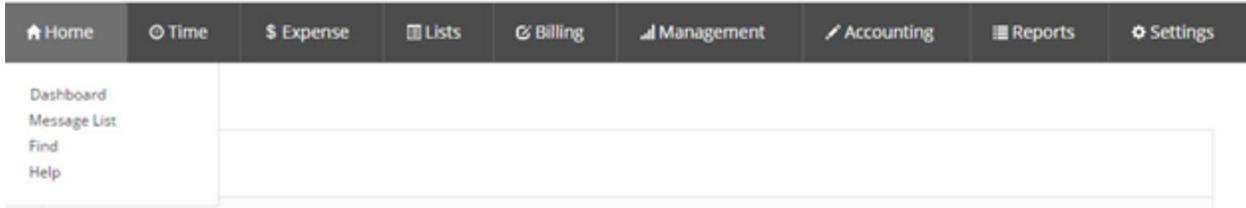

Navigation

BillQuick Online organizes its functions, features and reports into menus. Like all Windows programs, BillQuick Online has a navigation bar at the top from where you can access all the menus and submenus. At the bottom, you can see the database name, user and program version.

Navigation Bar

BillQuick Online displays a navigation bar at the top that represents all the major functions of the program. Clicking each menu item displays drop-down menus and submenus.

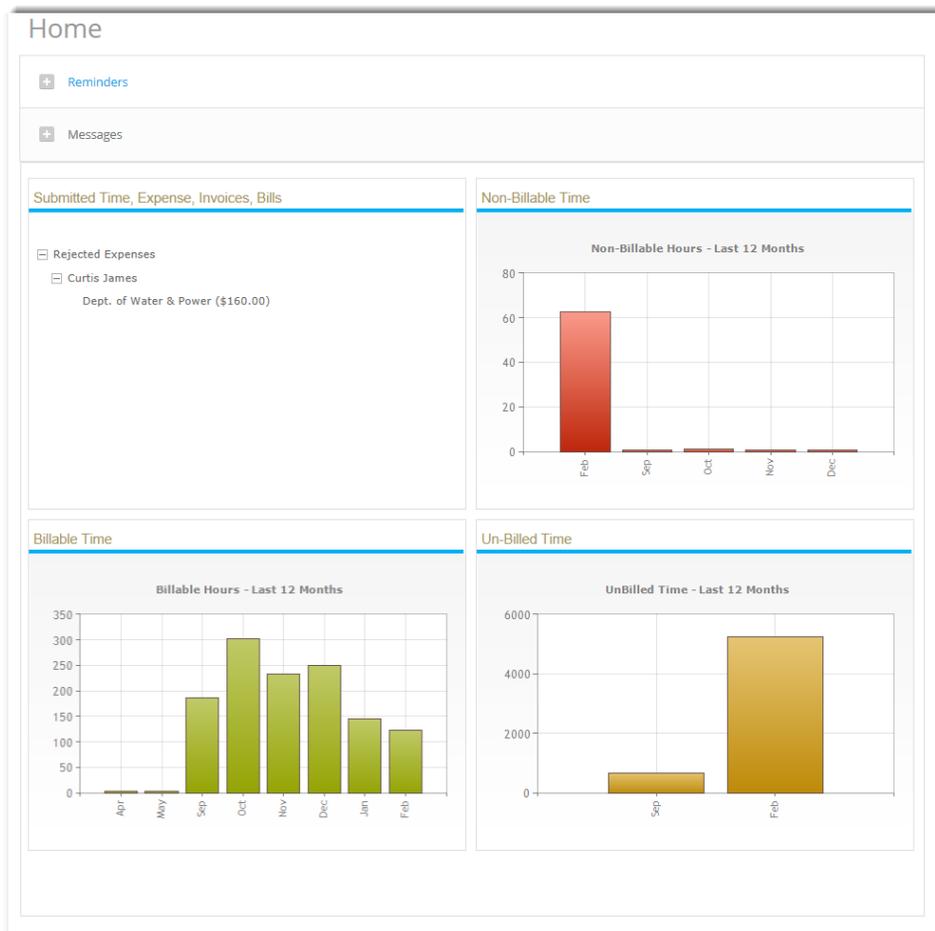

BillQuick Online

Home Page

The Home page of BillQuick Online provides useful user-based information. You can access:

- Important reminders and messages received
- Submitted time, expenses, invoices, and other items
- Charts depicting your non-billable time, billable time, etc.

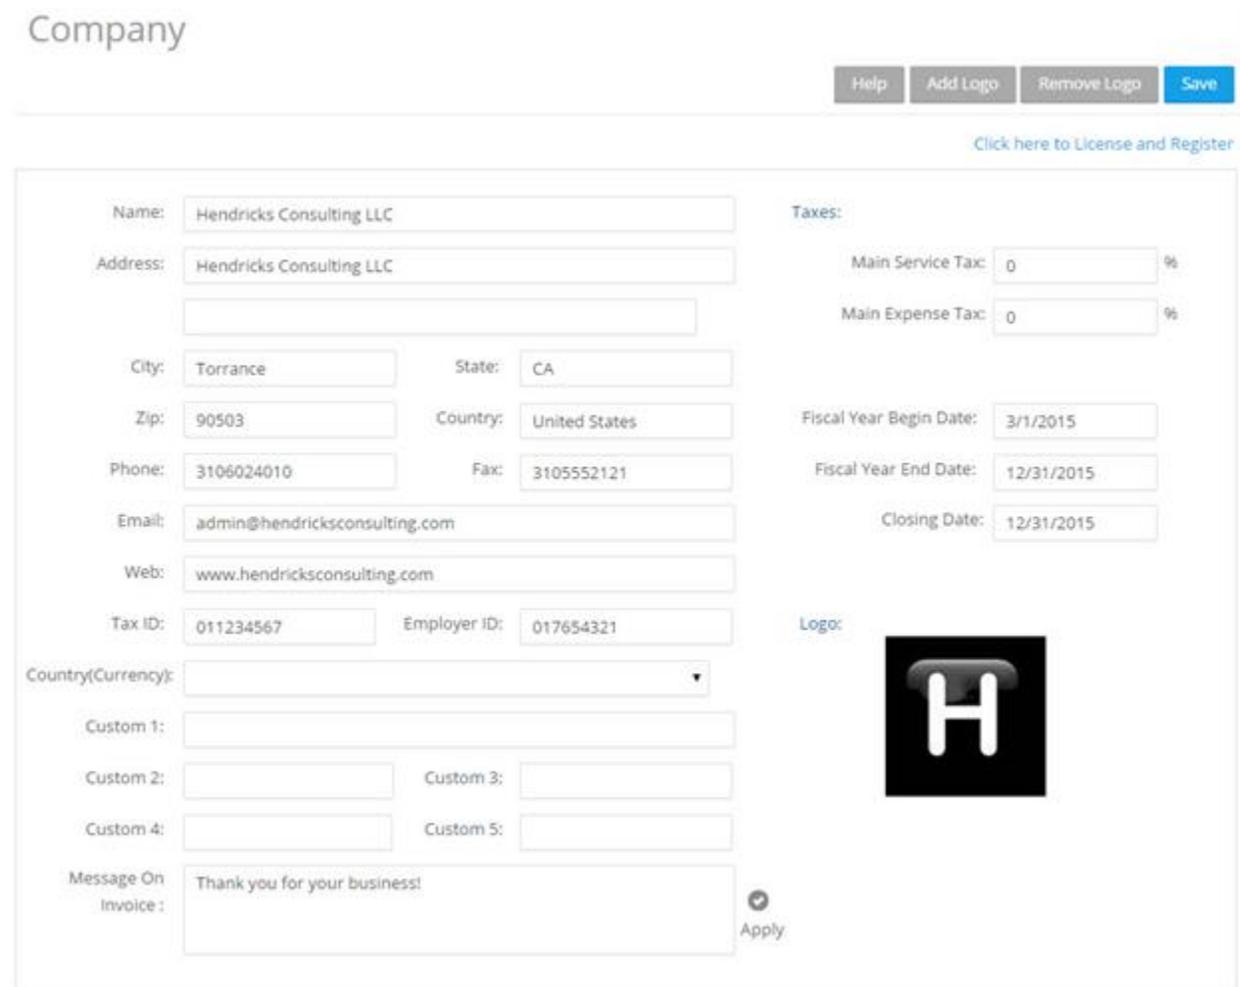

MASTER INFORMATION

Master information is the foundation of any time and billing system. This section covers the basics of master information maintained in BillQuick Online.

Company Information

The Company screen contains a profile of your company. Information on this screen appears on reports and invoices.

1. After creating or selecting the database, open the Company screen from Settings.

The screenshot shows the 'Company' information form in BillQuick. At the top right, there are buttons for 'Help', 'Add Logo', 'Remove Logo', and 'Save'. Below these is a link: 'Click here to License and Register'. The form is divided into several sections:

- Name:** Hendricks Consulting LLC
- Address:** Hendricks Consulting LLC
- City:** Torrance, **State:** CA
- Zip:** 90503, **Country:** United States
- Phone:** 3106024010, **Fax:** 3105552121
- Email:** admin@hendricksconsulting.com
- Web:** www.hendricksconsulting.com
- Tax ID:** 011234567, **Employer ID:** 017654321
- Taxes:**
 - Main Service Tax: 0 %
 - Main Expense Tax: 0 %
- Fiscal Year Begin Date:** 3/1/2015
- Fiscal Year End Date:** 12/31/2015
- Closing Date:** 12/31/2015
- Logo:** A black square with a white letter 'H' inside.
- Country(Currency):** A dropdown menu.
- Custom 1-5:** Five empty input fields.
- Message On Invoice:** Thank you for your business!
- Apply:** A button with a circular arrow icon.

2. Enter your company Name, Address, and all other relevant contact information in the appropriate fields.

- When you have finished, click Save.

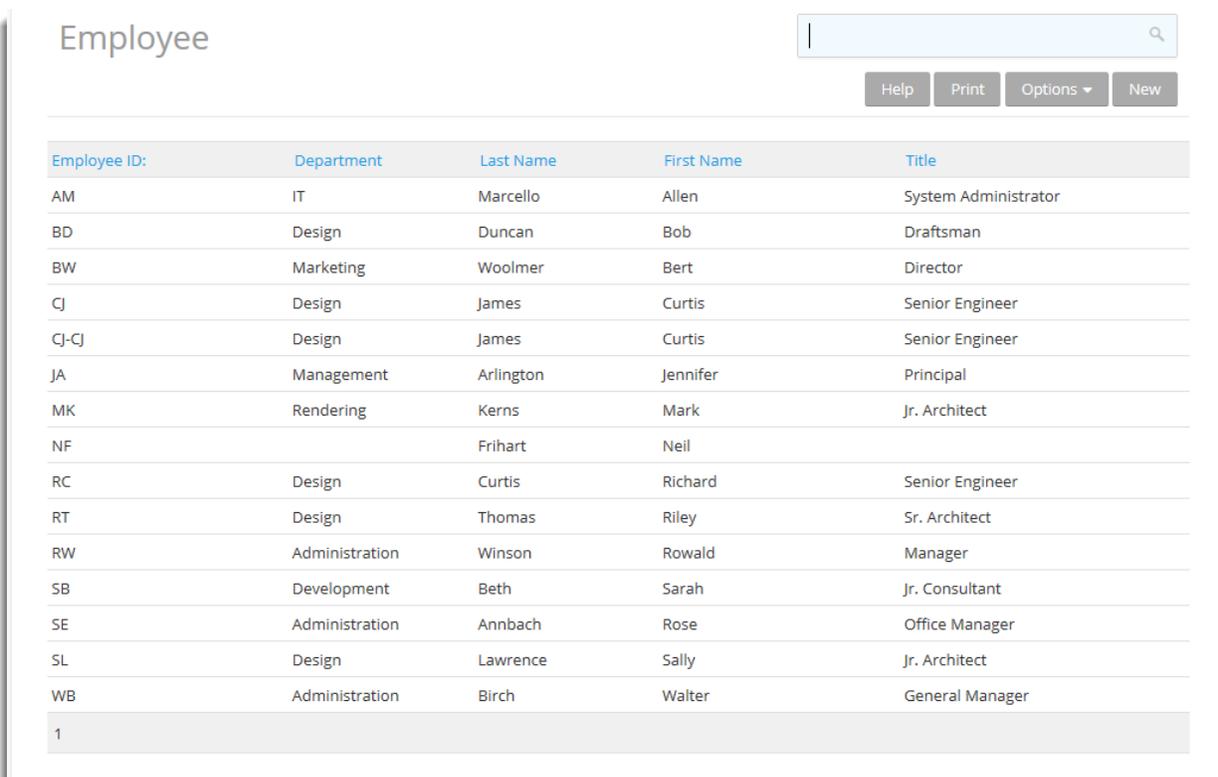

Your company information is now saved in the database. Let's look at the employee profile.

Employee Information

Employee screen represents a profile of a person working in a company on various activities and projects. This screen enables you to add and edit employee-related data. Employee information prints on reports and invoices. In addition, each employee has a default bill rate and cost rate that can be used when recording time entries or preparing budgets.

To create an employee profile:

- Select Employee from the Lists menu.
- On the Employee screen, you can view a list of existing employee records in the BillQuick Online database.

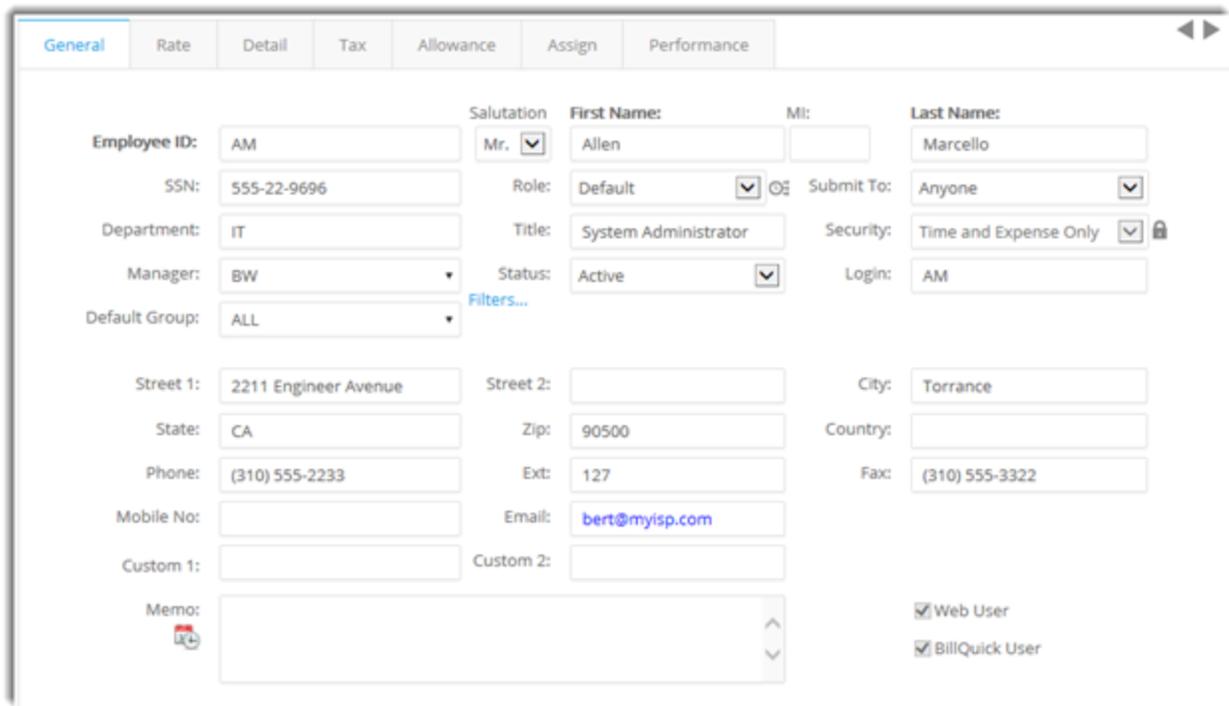

Employee

Help Print Options New

Employee ID:	Department	Last Name	First Name	Title
AM	IT	Marcello	Allen	System Administrator
BD	Design	Duncan	Bob	Draftsman
BW	Marketing	Woolmer	Bert	Director
CJ	Design	James	Curtis	Senior Engineer
CJ-CJ	Design	James	Curtis	Senior Engineer
JA	Management	Arlington	Jennifer	Principal
MK	Rendering	Kerns	Mark	Jr. Architect
NF		Frihart	Neil	
RC	Design	Curtis	Richard	Senior Engineer
RT	Design	Thomas	Riley	Sr. Architect
RW	Administration	Winson	Rowald	Manager
SB	Development	Beth	Sarah	Jr. Consultant
SE	Administration	Annbach	Rose	Office Manager
SL	Design	Lawrence	Sally	Jr. Architect
WB	Administration	Birch	Walter	General Manager
1				

- Click New to open the detail view where you can enter information for a new employee.
- The pointer will default to the Employee ID field on the General tab. Enter the Employee ID using numbers, letters or a combination of both (up to 65 characters).

5. Enter other relevant and required data such as First/Last Name, address details, etc. Press the Tab key to move from field to field or click on the next field.
6. Now, click on the Rate tab. In the Hourly Rate section, enter the default Bill Rate and Pay Rate for the employee.
7. If desired, enter information on the other tabs as well.
8. When you have finished, click Save and then Return.

Similarly, you can create a vendor or a consultant profile in the Vendor screen.

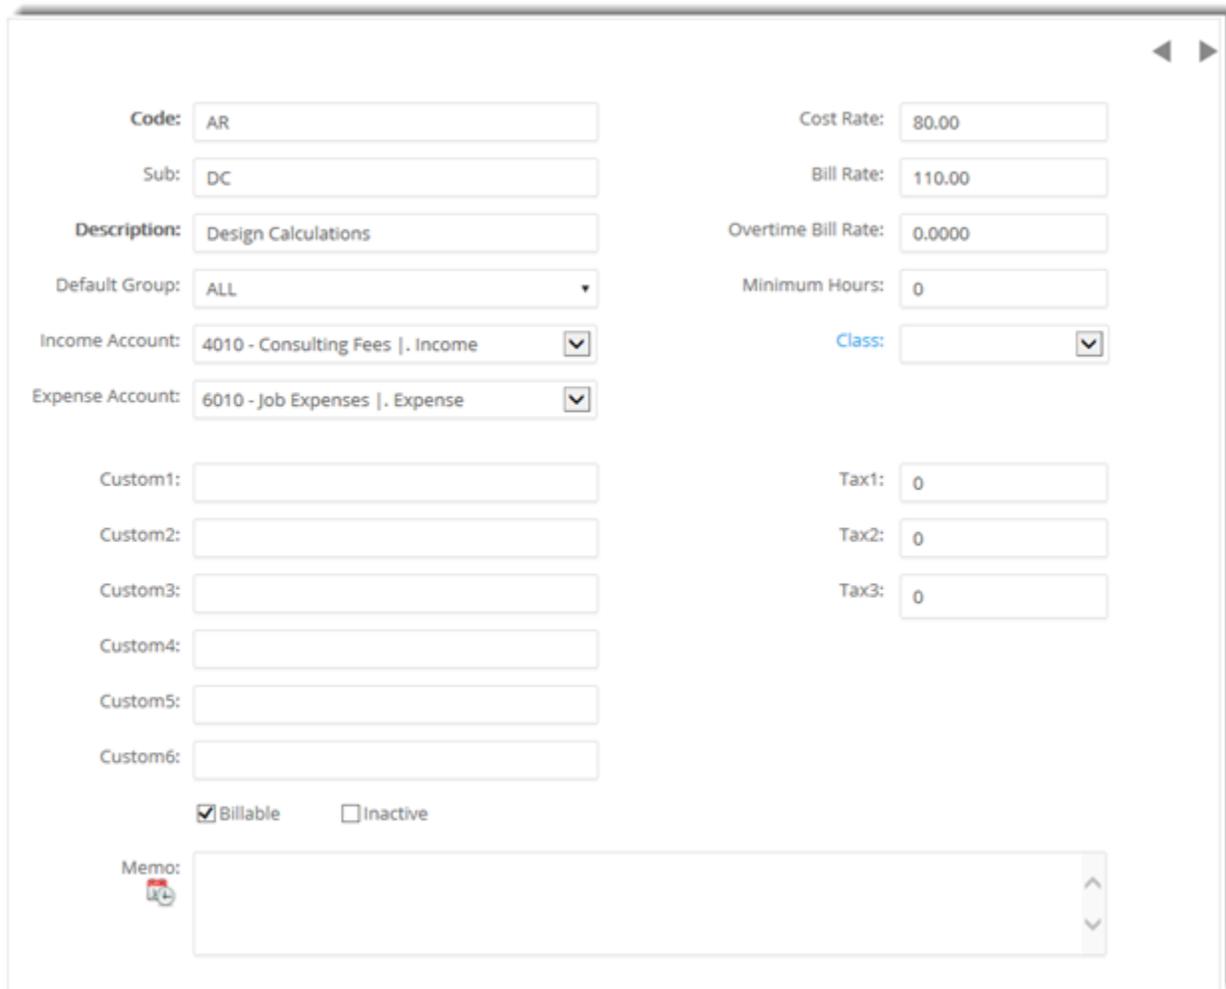

Activity Codes

On the Activity screen, you can create and maintain a list of standard activities or tasks. Activity codes are required to record time entries to a project and this information flows to the invoices and reports.

To create activity codes:

1. Select Activity from the Lists menu.
2. On the Activity screen, you can view a list of existing activity records in the BillQuick Online database.

- Click New to open the detail view where you can enter information for a new activity code.

The screenshot shows a form for creating a new activity code. The form is divided into two columns. The left column contains fields for Code (AR), Sub (DC), Description (Design Calculations), Default Group (ALL), Income Account (4010 - Consulting Fees |. Income), Expense Account (6010 - Job Expenses |. Expense), and six Custom fields (Custom1 through Custom6). The right column contains fields for Cost Rate (80.00), Bill Rate (110.00), Overtime Bill Rate (0.0000), Minimum Hours (0), Class (dropdown), and three Tax fields (Tax1: 0, Tax2: 0, Tax3: 0). At the bottom, there are checkboxes for Billable (checked) and Inactive (unchecked), and a Memo field with a red 'X' icon and a scroll bar.

- The pointer will default to the Code field. Enter the desired Code and, optionally, Sub (sub-code).
- Enter other relevant and required data such as Description, Cost Rate, Bill Rate, Tax, etc. for the activity.
- Make sure the Billable option is checked for each billable activity.
- When you have finished, click Save and then Return to close.

Similarly, you can create expense codes in the Expense screen.

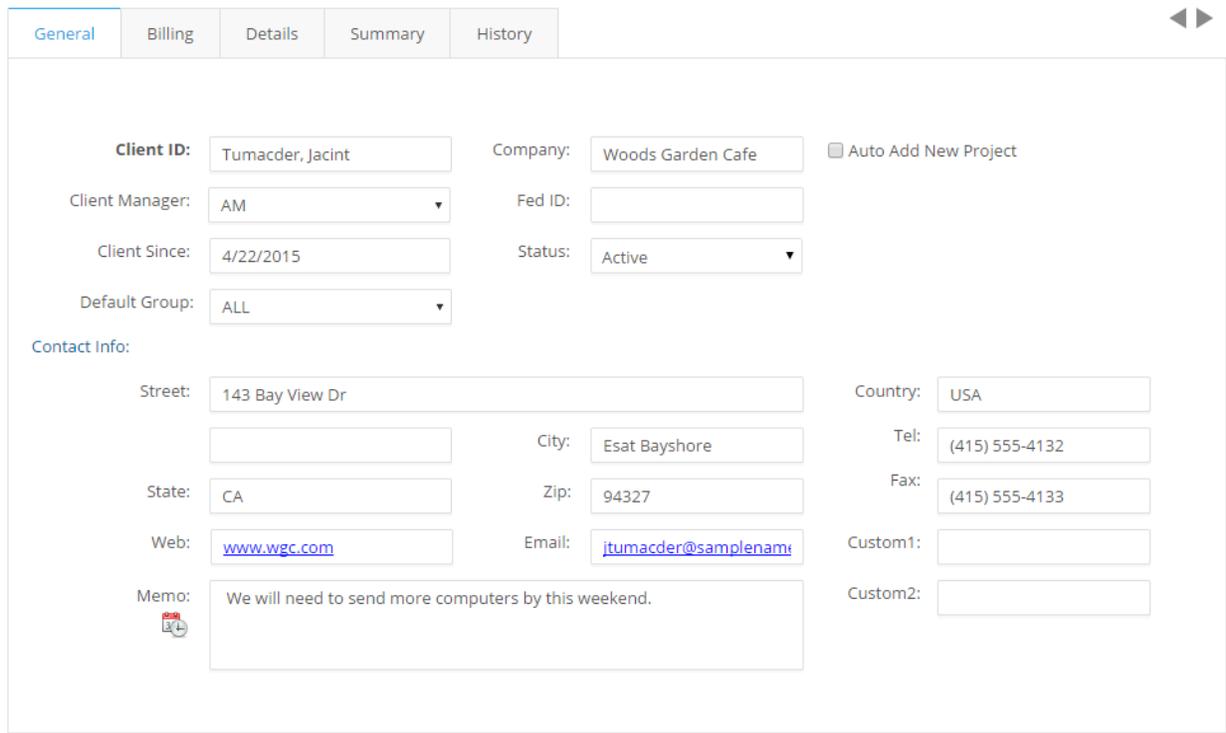

Client Information

The Client screen allows you to maintain customer profiles, billing addresses and contacts per client. It also

provides detailed information about client accounts, invoices and payments.

To create a client profile:

1. Select Client from the Lists menu.
2. On the Client screen, you can view the list of existing client records in the BillQuick Online database.
3. Click New to open the Client screen in the detail view where you can enter information for a new client

The screenshot shows the 'General' tab of a client profile form. The form contains the following fields and values:

- Client ID:** Tumacder, Jacint
- Company:** Woods Garden Cafe
- Client Manager:** AM
- Client Since:** 4/22/2015
- Default Group:** ALL
- Status:** Active
- Contact Info:**
 - Street:** 143 Bay View Dr
 - City:** Esat Bayshore
 - State:** CA
 - Zip:** 94327
 - Web:** www.wgc.com
 - Email:** jtumacder@samplenam
- Country:** USA
- Tel:** (415) 555-4132
- Fax:** (415) 555-4133
- Memo:** We will need to send more computers by this weekend.

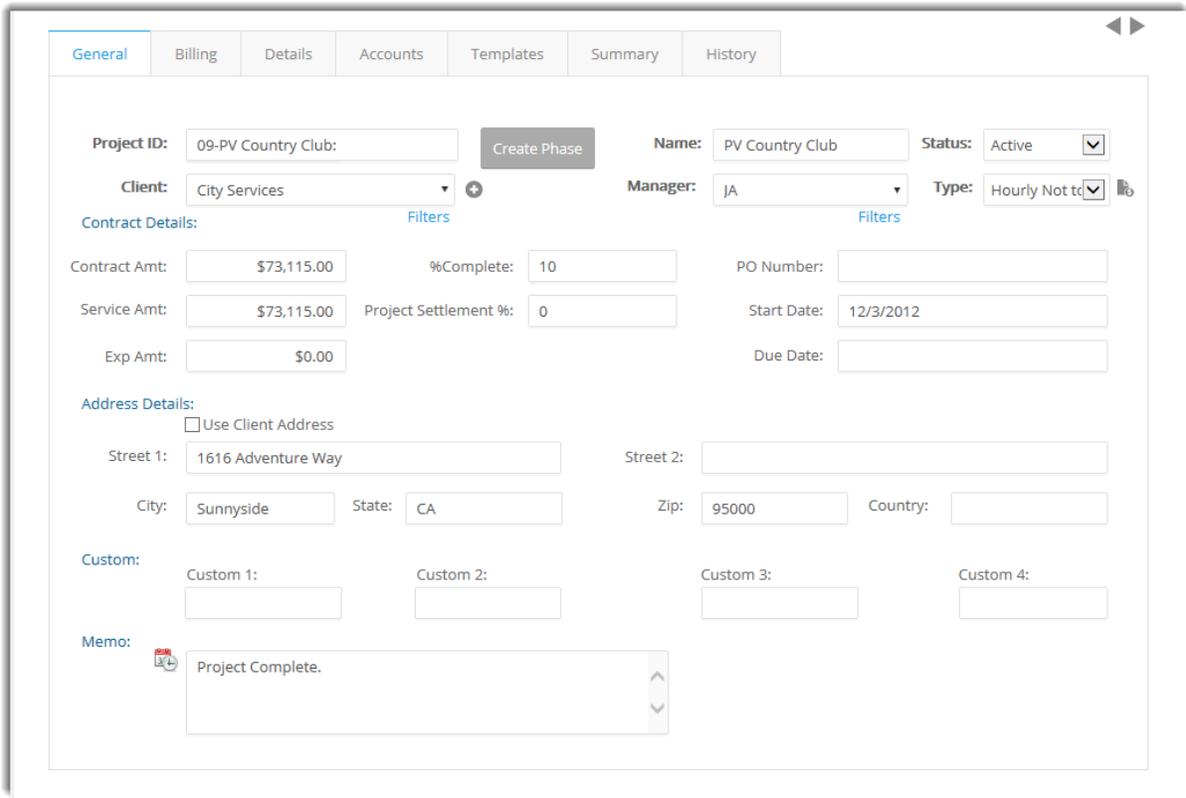

4. The pointer is automatically placed in the Client ID field on the General tab. Enter the Client ID using letters or numbers.
5. Enter other relevant data such as Contact Info, etc. Press the Tab key to move from field to field or click on the next field.
6. If desired, enter information on the other tabs as well.
7. When you have finished, click Save and then Return to close.

Project Information

Using the Project screen, you can create and maintain project or job profiles that you work on. Project information affects how data is processed and flows to various reports and invoices.

To create projects:

1. Select Project from the Lists menu.
2. On the Project screen, you can view the list of existing project records in the BillQuick Online database.
3. Click New to open the Project screen in the detail view where you can enter information for a new project.

The screenshot shows the 'Project Information' form in BillQuick Online. The form is divided into several tabs: General, Billing, Details, Accounts, Templates, Summary, and History. The 'General' tab is active. The form contains the following fields and sections:

- Project ID:** 09-PV Country Club: (with a 'Create Phase' button next to it)
- Name:** PV Country Club
- Status:** Active (dropdown menu)
- Client:** City Services (dropdown menu with a plus icon)
- Manager:** JA (dropdown menu)
- Type:** Hourly Not to (dropdown menu)
- Contract Details:**
 - Contract Amt: \$73,115.00
 - %Complete: 10
 - PO Number: (empty field)
 - Service Amt: \$73,115.00
 - Project Settlement %: 0
 - Start Date: 12/3/2012
 - Exp Amt: \$0.00
 - Due Date: (empty field)
- Address Details:**
 - Use Client Address
 - Street 1: 1616 Adventure Way
 - Street 2: (empty field)
 - City: Sunnyside
 - State: CA
 - Zip: 95000
 - Country: (empty field)
- Custom:**
 - Custom 1: (empty field)
 - Custom 2: (empty field)
 - Custom 3: (empty field)
 - Custom 4: (empty field)
- Memo:** Project Complete. (text area)

4. The pointer is automatically placed in the Project Code field on the General tab. Enter the Code and Phase (if you want to break down this project into phases and segments).

When you save the project, BillQuick Online automatically combines the Code and Phase into a single Project ID.

5. Enter other required and relevant data such as Name, Client, Manager, Status, Address Details, etc.
6. In the Type field, select the type of contract used for this project (hourly, fixed, cost plus, etc.). If a fixed contract type is selected, be sure to fill in the Contract Details. Move from field to field by pressing the Tab key or clicking on the next field.
7. If desired, enter information on the other tabs as well.
8. When you have finished, click Save and then Return to close.

TIME AND BILLING

This section focuses on time entry and billing capabilities of BillQuick Online. It helps you to understand the basics of how to enter, edit and review time entries and how to bill them effectively.

Time Entry

To enter and review time entries, you have three time entry options in BillQuick Online:

- Simple Time Entry
- Timer
- Time Entry

All time entries are saved in the same database. You can edit and review entries on the Time Entry and Simple Time Entry.

To record time entries using the Simple Time Entry screen:

1. Select Simple Time Entry from the Time menu.

Simple Time Entry

Help Copy Print Options ▾ Submit All Save Refresh

10-HUD Richmond:	Research:	Research						1.5		1.5
+ New				0.75		6.50	2.50	1.50	5.50	16.75

2. Select View By: Employee or Vendor (Time Entry enables you to view and record entries by Project also).
3. Select the desired Employee from the list.
4. Click New on the grid to record a new time entry.
5. Enter or select the desired Project ID and Activity ID against which you want to record time.
6. Press the Tab key to move from field to field.

 Whether or not a time entry is billable depends on the default value that is assigned to the activity in the Activity Codes screen (*see above*).

7. Enter the amount of time spent (in hours) on the project in the desired day/date field. Use decimals if needed.
8. To add a memo, click Options and check Show Memo. Click the desired cell and type your notes in the memo box. Enter as much text as you want.

 Depending on the invoice format chosen, a time entry memo can appear on your invoices. Memos also

print on various reports.

- When you have finished, click Save and then Return.

Similarly, you can record expense entries in the Expense Log or Simple Expense Log screen.

Billing

BillQuick Online allows you to quickly generate invoices by client, project, manager, contract type and by whatever billing period you want in the Billing Review screen. You can then display as much or as little detail as you want on your invoices when you print and mail, or email them to your clients.

To generate invoices:

- Use the Period drop-down list to select your billing period. You can call up information by month, day or any other time period you want, such as All or Custom.
- After setting the filters, click Refresh. BillQuick Online displays all billing records that meet your criteria.

		1,321.00	\$103,596.00	\$13,524.95			\$118,120.95			

3. Review all entries before continuing. To view the billing details, click  on the desired row.
4. The amount in the Net Bill column is the amount *to be billed* on the invoice. Depending on the contract type you chose for the project, the Net Bill amount can be the total of time and expenses charged to the project, a fixed fee amount, a scheduled bill amount, a recurring amount or a percent complete computation.

 You can adjust the Net Bill amount by applying a Discount, Retainer on account, or you can manually change the amount to any value.

5. To process a billing record into an invoice, check the Bill box and then click Process > Process Final. If you want to produce a draft invoice, click Process > Process as Draft instead. The billing records disappear and move to the Invoice Review screen.
6. When you have finished, click Close.

Now you are ready to review your invoices before sending them to your clients.

Invoices

From the Invoice Review screen, you can review invoices, finalize draft invoices and print them. Invoices created using the Billing Review or Manual Invoice screens display in the Invoice Review grid.

To review and print your invoices:

1. Select Invoice Review from the Billing menu.
2. The top panel of the Invoice Review screen provides various filters for selective viewing of the invoices. For now, do not apply any filter and click Refresh.

If you created a draft invoice, check the Draft check box and then refresh the screen to view them.

- Find the invoice generated in the last procedure (Billing Review) and then select it by selecting the check box to the left of it.
- Click Preview to view and print the invoice.
- When you have finished, close the screen.

Payment

The Payment screen allows you to apply and record payment information, as well as review previously recorded payments. When recording payments, you can distribute the payment among multiple invoices on either a client or project basis.

To apply payments:

1. Select Payments from the Billing menu.
2. On the Payment screen, select your View By mode, say Client and the desired Client ID.

<input type="checkbox"/>	Apply	Amount Applied	Project ID	Project Name	Invoice No	Invoice Date	Net Bill	Paid	Balance	Foreign	Notes
<input type="checkbox"/>		<input type="text" value="0.00"/>	09-PV Country Club:	PV Country Club	1042	2/12/2014	\$4,980.00	\$4,817.73	\$162.27	\$162.27	Notes
<input checked="" type="checkbox"/>		<input type="text" value="100.00"/>	09-PV Country Club:	PV Country Club	1119	4/16/2014	\$4,646.95	\$4,200.00	\$446.95	\$446.95	Notes

3. Select the Date and Pay Method to be used for recording payments.
4. Enter the total payment in the Amount field. This payment can be applied to more than one invoice.
5. Now decide which invoices should receive payment. Select the Auto Apply option to let BillQuick Online automatically apply the payment to the invoices, oldest to the newest. Or manually enter the amount in the Amount Applied field in the grid and check the Apply box.

BillQuick Online automatically updates the balance due for the listed invoices as you apply the payment.

6. When you have finished, click Save.

REPORTS

Reports compile and present recorded and processed information. BillQuick Online includes more than 500 reports and 180 invoice templates, each with filter options that allow you to precisely review the information you need.

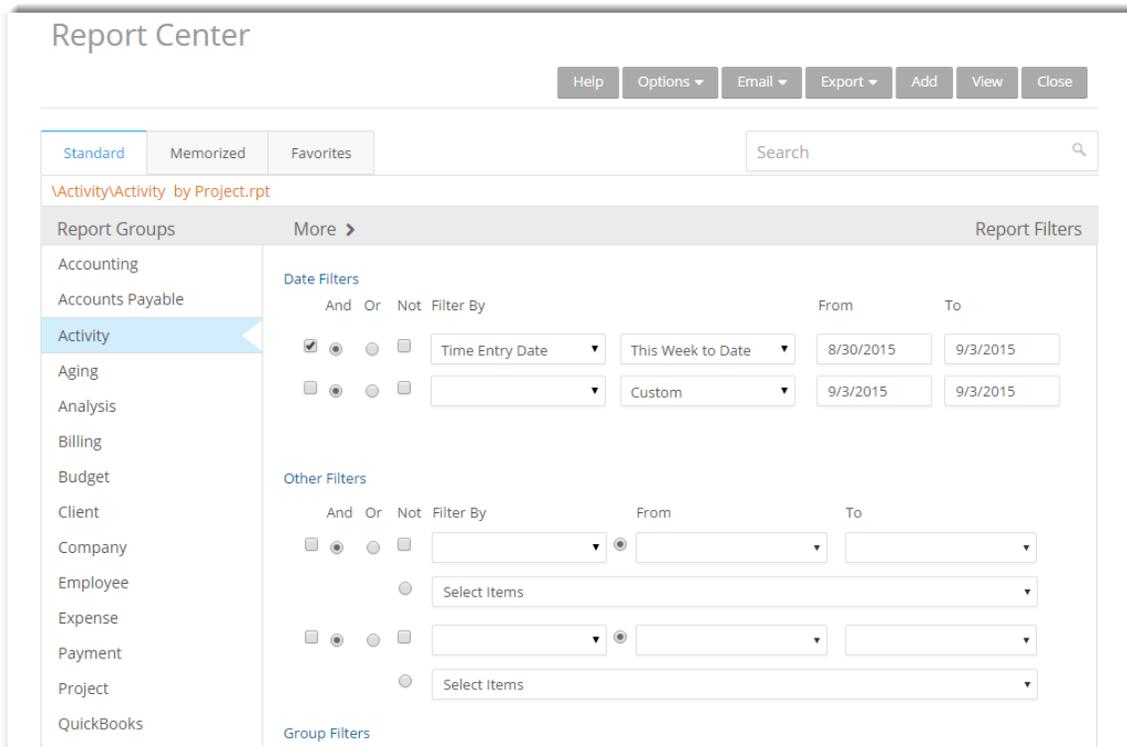

BQE Software develops all reports using Crystal Reports Writer, the most widely used report writer software. In addition, all your reports and invoice formats can be customized by BQE Reports Team.

Online Reports

Reports contain information to help you understand what exists in your company database, what is due to you, the status of work being performed, utilization of resources, unbilled and billed work, and much more. Reports can be produced directly from the screens (in-context reports) or from the Report Center screen.

To view or print a report:

1. Select Report Center from the Reports menu.
2. On the Standard reports tab, select a report from the list. The screen displays the report path.

The screenshot shows the 'Report Center' interface. At the top, there are buttons for 'Help', 'Options', 'Email', 'Export', 'Add', 'View', and 'Close'. Below these are tabs for 'Standard', 'Memorized', and 'Favorites', along with a search box. The main area is titled 'Activity\Activity by Project.rpt'. On the left, a 'Report Groups' sidebar lists categories like Accounting, Accounts Payable, Activity (selected), Aging, Analysis, Billing, Budget, Client, Company, Employee, Expense, Payment, Project, and QuickBooks. The main panel is divided into 'Date Filters' and 'Other Filters'. 'Date Filters' includes options for 'Filter By' (Time Entry Date), 'From' (This Week to Date), and 'To' (8/30/2015 to 9/3/2015). 'Other Filters' includes options for 'Filter By' (Select Items) and 'From' (9/3/2015 to 9/3/2015).

3. Apply Date or Other Filters by choosing the Filter By and From-To options to view selective

information on the report.

4. You can also apply Group Filters by selecting them at the bottom.
5. After you have applied the desired filters, preview the report by clicking Export and then Legacy Viewer.
6. You can print or export the report (as a PDF file or any other format like Excel and Word), navigate to the previous or next report page or view the first/last page of the report.
7. When you have finished, click Close to exit.

Congratulations! You have successfully set up BillQuick Online and have familiarized yourself with its basic functionality. To learn more about this program, check the [BillQuick Online Help](#) or visit [billquickonline.com](#). To learn about its synchronization with BillQuick, see the [BillQuick Online Sync Tool Guide](#).
