

BQE Software Unveils BillQuick 2013

BQE Adds Over 75 Stunning New Features to Award-Winning Flagship Software.

LOS ANGELES, CA — March 20, 2013 — BQE Software Inc., a world leader and innovator of Project Management, Time Tracking and Billing software announced today the immediate availability of BQE BillQuick® 2013. The new release continues BQE's proud tradition of creating friction-free software that is intelligent, intuitive and interactive.

The enhancements to BillQuick 2013 give users more powerful live Gantt charts to simplify project management and resource allocation, the ability to quickly convert To-Do items into time entries, and the capability to effortlessly track schedules in real-time. The new tools ensure projects can be tracked and finished quickly with minimal user input.

"We're very conscious of the challenges firms encounter trying to monitor project tasks and balance employee workloads. As a result, we have given our customers powerful tools to help them allocate resources efficiently and complete projects on time, which is the absolute key to achieving peak profitability," says Shafat Qazi, CEO and Founder of BQE Software. "The new BillQuick delivers unparalleled productivity and business intelligence for firms, and we know these improvements would not be possible without the support and feedback of our users."

Other notable additions allow users to forecast workloads and revenue, view snapshot analytics of their firm's performance, and automate tasks like job rescheduling and invoice generation. With this 2013 release, BillQuick truly establishes itself as a must-have for any business that wants to see serious growth.

Availability
