

# BQE Software Adopts Subscription-based Pricing Model

## New, Affordable SaaS Plans Offer Free Updates, Unlimited Support, and Mobile Access

Torrance, CA – June 25th, 2014 – BQE Software Inc., a world leader in time tracking, billing, and project management software with more than 300,000 users worldwide, announced it has completed its transition to a subscription-based pricing model. Effective May 2014, 100 percent of BQE products, including BillQuick®, ArchiOffice®, and EngineerOffice®, are available for a low monthly subscription fee, starting as low as \$14.95 per user.

“This year, BQE Software has made great strides in its mission to provide high quality software at an affordable price to every business”, said Shafat Qazi, CEO & Founder of BQE Software. “The new pricing model stems from our desire to meet growing consumer demands. We have recognized that there is a shift in business consumers from purchasing software licenses to subscribing to lower priced software services instead. By turning BQE Software into a 100 percent Software as a Service (SaaS) company, we are able to give many firms, especially small businesses with limited resources, the opportunity to use our powerful software at an affordable price.”

With new SaaS implementations, BQE Software now allows firms to easily add and deduct licenses, run the most recent version of the software, and enjoy free and unlimited support at an affordable monthly subscription rate. Full benefits for BillQuick, ArchiOffice, and EngineerOffice customers include:

- Free major and minor software updates
- Unlimited phone and email support
- Support for On-Premise and On-Cloud configurations
- Free native iOS, Android, and Windows Phone applications

### Availability

BQE ArchiOffice® 2014 is now available for worldwide purchase through BQE Direct Sales and BQE Authorized Resellers.
