

BQE Software Announces the Release of BillQuick 2015

Latest Version Delivers Improved Project Visibility and Control, Enhanced Accounting and Faster Performance

Torrance, CA – March 18th, 2015 – [BQE Software, Inc.](#), a world leader in time billing, project management and accounting software with more than 325,000 users worldwide, announced today the immediate availability of BQE [BillQuick® 2015](#). In addition to significant performance improvements, the 2015 version includes over 75 new features that give users increased project visibility, powerful project-based accounting and management functionality.

“This year marks a significant milestone in the evolution of BillQuick, with the addition of robust accounting features. BillQuick 2015 can now stand toe-to-toe with other mature enterprise accounting solutions used by professional services firms”, says Shafat Qazi, CEO and Founder of BQE Software. “Not only have we worked hard to simplify project-based accounting, we’ve also developed tools that empower our users with intelligent actionable insight into their business data.”

“Some of our largest customers, with millions of records, have encouraged us to improve our data processing speed,” Qazi added. “Our team not only took on the challenge, but far exceeded our customers’ expectations. BillQuick 2015 is blazingly fast!”

“Besides adding powerful new features, our R&D team has also revamped the entire look and feel of the web and cloud-based versions of BillQuick to provide a richer user experience,” Qazi continued. “I’m extremely proud of our team and their accomplishments in enhancing BQE products this year.”

As BQE celebrates its 20th year in business, BillQuick 2015 promises to be the most powerful version yet, allowing users full control over their projects and finances. Key 2015 features include:

- Support for multiple profit centers or companies via Classes in one accounting file
- Ability to assign general ledger accounts at the project level for refined control
- CRM style notes with time stamp and categorization for Client, Employee and Project records
- A new Recurring + Hourly contract type to manage Fixed + Hourly client engagements
- Enhanced workflow including submittal and approval of Budgets and Estimates
- Intuitive new user interface for web and cloud-based versions
- Inclusion of A-Codes and L-Codes with enhanced support for LEDES electronic billing
