

# Unleash Your Potential With Core Mobile

Most businesses use mobile apps, but few go beyond the basics of email and calendars. Those that take advantage of rapidly advancing app technology, however, are 15% more productive and have 49% larger year-over-year profit growth.<sup>1</sup>

BQE Core's mobile apps for iOS and Android offer unparalleled capabilities that enable you to manage your entire business from your phone.

## DASHBOARDS

Keep tabs on profits, KPIs, to-dos, and more thanks to intuitive, customizable dashboards that offer real-time insights.

## TIME & EXPENSE TRACKING

Capture every dollar by automatically logging time spent off-site and instantly turning to-dos into time sheets.

## PROJECT MANAGEMENT

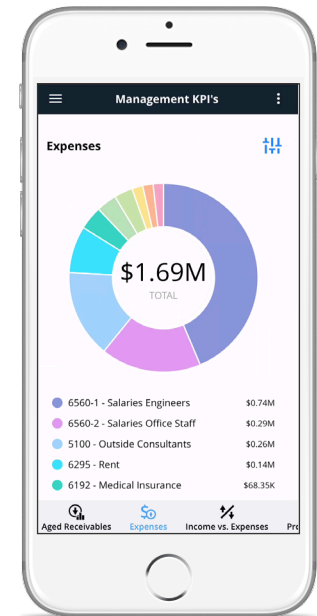

Ensure your projects are always on-time and on-budget with features like specialized performance screens and real-time job costing.

## BILLING

Maintain a healthy cash flow even when you're out of the office by generating and sending invoices as well as applying payments.

## REPORTING

Get a comprehensive view of your business's health with reports on utilization, budgets, A/R, and more, all at your fingertips.
