

BQE CORE

System Review Package

*Unlock Efficiency.
Align Your Firm For Growth.*

System Review Package

Who It's For:

This package is tailored for **firm owners, operations managers, principals, and team leaders** who want to **evaluate and optimize how their team uses BQE CORE**. Whether you're scaling, re-aligning, or simply want to improve efficiency, this assessment will shine a light on where to improve and how.

What's Included:

A BQE expert will perform a comprehensive diagnostic of your BQE CORE setup, workflows, and operational practices and then deliver actionable recommendations based on industry best practices. **Assessment Focus Areas:**

- **Firm Settings & System Configuration** - Evaluate BQE CORE's setup to ensure it's aligned with your operations and growth goals.
- **Project Lifecycle Review** - Identify gaps in how projects are created, tracked, and closed out.
- **Time & Expense Tracking** - Assess timekeeping practices and identify areas for increased efficiency and compliance.
- **Billing, Invoicing & Collections** - Streamline billing workflows to reduce errors and speed up cash flow.
- **Reporting, Dashboards & KPIs** - Ensure you're monitoring the right metrics and automating insights.
- **Process Optimization Recommendations** - Receive a tailored report with step-by-step improvements you can implement right away.
