BQE SOFTWARE, INC.

BQE Core® Set to Transform Professional Services Businesses With Complete Business Management Software

NEW PLATFORM FEATURES A COST EFFICIENT “PAY FOR WHAT YOU NEED” STRUCTURE, AND WORKS ON ALL OPERATING SYSTEMS AND MOBILE DEVICES

TORRANCE, CA (July 19, 2017) — [BQE Software, Inc.](#), a world leader in time billing, project management, and accounting software with more than 400,000 users worldwide, announced today the launch of [BQE Core®](#), a complete business management tool for professional services.

Building upon their extensive experience over two decades developing software to serve architects, engineers, accountants, attorneys and other service professionals, BQE committed more than 100 employees over the past three years to develop a brand new system that would propel their customers to the forefront of technology in business. BQE Core takes all the essential business functions and seamlessly integrates them into a secure, cloud-based solution conveniently accessible from any operating system or mobile device. BQE Core was purpose-built to perform complex tasks blazingly fast, overcoming one of the most problematic aspects to cloud computing: speed.

“Our dream was to build the most beautiful software interface with an extremely powerful engine to simplify the lives of millions of business owners and managers around the world. To achieve this, we put together a team of world-class engineers, designers, and domain experts and worked extremely hard to deliver this amazing software, BQE Core”, said Shafat Qazi, CEO and Founder of BQE. “It will revolutionize professional services firms because it’s easy to use, extraordinarily powerful and provides a rich user experience.”

“We built BQE Core with customizable features that make contextual sense for our customers,” continued Qazi. “Professional services firms can adjust the solution to meet their specific

industry and employee needs. Core stands apart in the industry due to its ability to let the customer be in complete control of their data and how it's presented."

A key element of BQE Core is the clean, contemporary design. "Consistency and simplicity were the driving forces behind the design of our user interface and experience." Said Steven Burns, Chief Creative Officer of BQE. "Our biggest challenge was to take a powerful solution and present it in a way that is fresh, friendly and functional. The solution provides users at any level of the organization powerful yet intuitive capabilities for accounting, scheduling, project management, business intelligence, and billing."

BQE Core provides management with key performance indicators related to their projects, employees, clients, and vendors that allow them to better plan internal resources and manage costs in real-time. For example, they can dynamically view the calculated effective billing rate for every individual to gauge performance and to judge if the billing rates should be adjusted going forward.

BQE also offers a unique "pay only for what you need" [pricing structure](#) for Core. Companies pay only for the features that their staff needs to access. Monthly, quarterly, and annual subscriptions make it ideal for firms with elastic demand. The solution offers an exceedingly high value proposition for users, through competitive pricing, flexible subscriptions, and seamless mobile device access. The customization capabilities of the product are unparalleled, enabling firms to tailor the program to meet their unique needs.

BQE Core includes features that work together synchronously to create a market-leading solution. **NOTABLE FEATURES INCLUDE:**

- [Multiple customizable dashboards](#) with charts and graphs that provide companies with actionable intelligence
- Fully-functional native [mobile apps](#) for iOS and Android phones
- Download and [reconcile transactions](#) for banks or financial institutions around the world
- [Seamless integration](#) with QuickBooks Online and MYOB Account Right
- Cloud storage integration with Google Drive, Dropbox and AWS

BQE Core is available immediately to the market for a 15-day free trial at www.bqe.com/core
