

BQE Software Conference Draws Hundreds of Customers & Celebrates Launch of BQE Core®

At the Inaugural BQE Succeed User Conference, Company Officially Releases Groundbreaking Project Management & Accounting Platform

TORRANCE, CA (November 8, 2017): [BQE Software, Inc.](#), a global market leader in project management and accounting software, hosted its BQE Succeed user conference from October 29 to 31 at the Aria Resort Convention Center in Las Vegas and debuted its newest product to a roaring crowd.

BQE CEO and Founder Shafat Qazi presented the state of the company, and alongside Chief Creative Officer Steven Burns, FAIA, introduced [BQE Core®](#), their latest innovation. While Core has already won K2 Enterprises' K2 Quality Award for Best New Product of 2017, BQE customers were delighted to see it in person for the first time. Core promises to transform customers' businesses with its cutting-edge cloud accounting, project management, billing, time and expense, and business intelligence technology.

In Qazi's words, "Based on the support and encouragement we received from our customers at the conference, it was clear that the conference was a huge hit and all the attendees found it to be extremely valuable. The official introduction of BQE Core to our customers went way above

our expectations and we can't wait to transform the lives of millions of business owners with this cutting-edge product."

Burns added that *"the greatest benefit of the event was the connection made between the BQE staff and all of the customers. When customers not only saw what BQE had built with the Core platform but also where we were headed, it became clear to them that we are not a run-of-the-mill software provider."*

The list of renowned speakers at BQE Succeed included author and hall of fame speaker Scott McKain, PSMJ Resources Director David Burstein, Shiner Group Owner Leslie Shiner, Sleeter Group Founder Doug Sleeter, and more.

Sleeter commented, *"BQE Succeed 2017 was the coming out party for BQE Core. This awesome product is a huge leap forward for professional service firm operations management, and I believe it will be the market-leading platform in the years to come. I give BQE Core the highest marks possible across the board."*

BQE customers, who came from all over North America, were thrilled with the education, connections, and fun they found at BQE Succeed.

Jenny Trahan, a BQE customer from Carr Engineering in Houston, remarked, *"The conference exceeded all my expectations. It was well planned, well executed and had great speakers and content."* Another attendee—Tammy Kirkpatrick of Alliance Environmental in Indianapolis—shared, *"I'm loving what I saw Core do. Super excited to see where it's going! Overall, a huge thumbs up for the entire conference!"*

ABOUT BQE®

BQE Software develops innovative practice management software for professional services firms. Its products—including BQE Core®, BQE BillQuick®, BQE ArchiOffice® and BQE EngineerOffice®—centralize and streamline the way firms enter and use information for time tracking, billing, project management, and accounting. This gives them the speed and insight necessary to rapidly make informed decisions, increase productivity, and grow profits. With more than 400,000 users worldwide, BQE Software is trusted by leading [architects](#), [engineers](#), [accountants](#), [attorneys](#), [IT specialists](#), and [business consultants](#). The company is headquartered in Torrance, California, with offices in Sydney, Australia.
