

FOR IMMEDIATE RELEASE

# BQE Software Honored with Top 50 Best CEO's for Women Award

**BUSINESS MANAGEMENT SOFTWARE PROVIDER WINS HEADLINING AWARD**

**T**orrance, CA – June 24, 2019 — [BQE Software, Inc.](#), a global leader in business management software for professional services firms, was honored with a 2019 Comparably Awards for Best CEO for Women. The Comparably Award recognizes companies that are helping drive positive culture change. The top 50 Best CEOs for Women are based solely on CEO approval ratings given by female employees.

Comparably Awards are derived from sentiment ratings provided by employees who anonymously rated their employers on Comparably.com between June 7, 2018 through June 7, 2019. There were no fees or costs associated with participating, nor was nomination required. The final data set was compiled from nearly 10 million ratings across 50,000 U.S. companies on Comparably.com. The answer to each question was given a numerical score and compared to companies of similar size across the U.S.

“The opportunity and success of our employees is not determined by their gender. We measure our employees by their commitment to excellence. BQE is an equal opportunity company and fortunate to have many professional women as part of our staff and executive team. The creativity and energy they bring to the workplace is contagious. I am honored and thankful for their confidence and trust in my leadership.” said Shafat Qazi, CEO and Founder of BQE Software.

BQE Software is continuing to prioritize workplace and cultural initiatives equal to all other business initiatives.
