

FOR IMMEDIATE RELEASE

BQE Software Honored with Top 50 Best CEO's for Diversity Award

BUSINESS MANAGEMENT SOFTWARE PROVIDER WINS HEADLINING AWARD

Torrance, CA – June 25, 2019 — [BQE Software, Inc.](#), a global leader in business management software for professional services firms, was honored with a 2019 Comparably Awards for Top 50 Best CEOs for Diversity award. The Comparably Award recognizes companies that are helping drive positive culture change. The Top 50 ranked CEOs are based solely on CEO approval ratings given by racially diverse (non-Caucasian) employees.

Comparably Awards are derived from sentiment ratings provided by employees who anonymously rated their employers on Comparably.com between June 7, 2018 through June 7, 2019. There were no fees or costs associated with participating, nor was nomination required. The final data set was compiled from nearly 10 million ratings across 50,000 U.S. companies on Comparably.com. The answer to each question was given a numerical score and compared to companies of similar size across the U.S.

“It has been our mission at BQE to create a people-first environment, from both a customer and an employee perspective, and I am truly honored,” said Shafat Qazi, founder and CEO of BQE Software. “I am especially proud because this reflects our tremendous effort to create an inclusive and diverse culture where employees feel happy, respected, and inspired to do the best work of their lives. Putting people before process allows for true creativity and innovation, and these are the twin engines that drive BQE’s growth and success. Diverse employees to us equals diverse ways of solving unique business problems for our customers” said Shafat Qazi, CEO and Founder of BQE Software.

BQE Software was also a previous winner in Q4, 2018 Comparably Awards for Best Workplace for Diversity.
