*BUSINESS MANAGEMENT SOFTWARE PROVIDER LEADS IN REVIEWS, INTEGRATIONS, MOBILE APPS, SECURITY AND FUNCTIONALITY IN GETAPP'S QUARTERLY RANKING SHOWCASE*

TORRANCE, Calif., February 26, 2019 – BQE Software, Inc., a global leader in business management software for professional services firms, was ranked as a top 10 leader in GetApp's quarterly ranking showcase of the top cloud-based accounting software. These factors include user reviews, integrations, mobile app availability, functionality, and security. To be eligible for inclusion, products must offer a core set of functionalities, as determined by research analysts, who provide coverage of and have familiarity with products in that market.

Shafat Qazi, CEO and Founder of BQE Software, says, "We are extremely proud of making it to the top 10 online accounting software list. It validates our vision that a good software has to go beyond basic functionality. It has to delight the user, learn on its own and provide actionable intelligence. BQE Core is a perfect example of embracing these key elements in its design and the world has noticed."

Since GetApp's "Category Leaders" list is intended to cover the accounting market at large, individual analysts use their market experience and knowledge, existing market-based research, and small business software buyer needs analysis to assess an application's suitability. To create each Category Leaders ranking, the research team typically evaluates hundreds of products in any one category. The 10-15 with the highest scores become Category Leaders.

In addition, a product must have at least 20 unique user-submitted product reviews across the three Gartner Digital Markets web properties: softwareadvice.com, capterra.com, and getapp.com, and those reviews must be published within 18 months of the start of the analysis period. The analysis period for the Q1 2019 Category Leaders update is May 9, 2017 to November 9, 2018.
