

FOR IMMEDIATE RELEASE

# BQE Software Rated Category Leader in GetApp Ranking Showcase for Cloud-Based Expense Management Software

***BUSINESS MANAGEMENT SOFTWARE PROVIDER LEADS IN REVIEWS, INTEGRATIONS, MOBILE APPS, SECURITY AND FUNCTIONALITY IN GETAPP'S QUARTERLY RANKING SHOWCASE***

Torrance, CA – February 19, 2019 — [BQE Software, Inc.](#), a global leader in business management software for professional services firms, was ranked as a leader in GetApp's quarterly ranking showcase of the top 15 providers of expense management apps based in the cloud. These factors include user reviews, integrations, mobile app availability, functionality, and security.

"We are especially proud of this ranking because it covers major categories that businesses should consider when selecting a software platform, since managing expenses properly is such an important part of daily business that impacts the bottom line," said Setareh Motamedi, Vice President of Marketing at BQE Software.

"The reviews are reflective of BQE Core's great user experience, and when you pair that with security, functionality and the ability to stay connected to your business with an innovative solution, you set yourself up for success. There is no other factor more important to BQE Software than how our customers engage with the product, and we are thrilled to continue seeing such positive reception."

To be eligible for inclusion as a "Category Leader", products must offer a core set of functionality, as determined by research analysts, who provide coverage of and have familiarity with products in that market. Since Category Leaders cover the Expense Management market at large, individual analysts use their market experience and knowledge, existing market-based research, and small business software buyer needs analysis to assess an application's suitability.

In addition, a product must have at least 20 unique user-submitted product reviews across the three Gartner Digital Markets web properties: softwareadvice.com, capterra.com, and getapp.com, and those reviews must be published within 18 months of the start of the analysis period. The analysis period for the Q1 2019 Category Leaders update is May 9, 2017 to November 9, 2018.

To create each Category Leaders ranking, the research team typically evaluates hundreds of products in any one category. The 10-15 with the highest scores become Category Leaders.
