BQE Software welcomes Arvind Sharma as Chief Technology Officer

Arvind will oversee the company's product technology and related infrastructure

TORRANCE, Calif. - September 15th, 2021 - BQE Software Inc., the industry leader in business management software for professional services firms, is pleased to announce that Arvind Sharma has joined the company as Chief Technology Officer. In his role, Arvind leads BQE Software's product technology; his focus is to ensure a scalable architecture, infrastructure, and security while delivery innovative technology for BQE's customers.

Arvind brings more than 20 years of enterprise software development experience to BQE; he spent the last decade focused on big data, machine learning, and artificial intelligence in the cloud-native environment. Arvind also brings vast amounts of engineering expertise, leadership skills, and team- building abilities with a deep technical understanding of the SaaS industry in multiple verticals.

Most recently, Arvind served as CTO for Compeat Restaurant Management Software, spearheading engineering and product teams to build a next-gen platform, enhance existing products, and improve product KPIs. He previously led teams at Top Image Systems, 4iQ, and Omnitracs. His comprehensive background makes him the ideal person to accelerate technological innovation for BQE.

"We are very excited to have Arvind join BQE's executive team. His experience in security, scalability, artificial intelligence and performance- driven cloud computing will enhance the robust growth BQE has been experiencing and ensure that we exceed the expectations of our customers in all areas of technology", said Shafat Qazi, CEO & Founder of BQE.
