

## An All-in-One Solution

For over 25 years, BQE has delivered innovative yet easy to use software supported by top-notch 24/7/365 global customer service and support. From the beginning, our goal has been to help businesses become more efficient, more productive, and more profitable. Our award-winning platform lets you work the way you want, systemizing and automating processes so you can focus on your mission and serving your clients.

### Time and Expense

Capture more revenue with effortless time tracking, rapid-entry expenses, an intuitive mobile interface, free mileage tracking, and OCR receipt scanning. Core makes it easy to enter data once and have real-time access to project costs and hours.

### Billing

Say goodbye to late and forgotten invoices. Efficiently process bills in batches or automatically on a pre-set schedule with a variety of billing methods. Plus, make informed decisions based on payment history, key historical data, and account notes.

### Accounting

Streamline and centralize your accounting with a truly integrated solution. Save countless hours with automatic bank feeds to reconcile accounts and run financial reports by class or individual projects to gain valuable, detailed insights.

### Project Management

Control your projects with powerful insights, allocation & forecasting, job costing, and other features that maximize your resources. Core's dashboards, performance screens, & reports provide a complete view so you can deliver perfect projects on time and in budget.

### Human Resources

Automate and simplify those never-ending admin tasks (benefits, PTO, salary history, incidents and performance reviews), so you can focus on the strategic growth of your organization. Plus, manage all of your HR documents in one secure, digital location.

### Mobile

Make anywhere your office. Manage your business and stay informed on the go. Streamline your work with mobile apps that feature real-time project KPI dashboards, multiple timers & invoicing tools. Managers can even review and approve timecards.

### CORE CRM

Win more new business with CORE's Client Relationship Management solution. Manage every conversation, activity and opportunity with a library of customizable templates for your sales and marketing campaigns, easy to use dashboards to track team performances and goals, and more!

### CORE ePayment

Speed up your payment process with CORE ePayments. Your clients have the convenience of paying invoices electronically instantly and securely with their credit cards or ACH (automated clearing house). You get paid faster and improve your cash flow while making your clients happy.
